

Butterfly Craft

Take the bump pipe cleaner, and bend each end into the middle of the pipe cleaner. Do the same thing with the other bump pipe cleaner.

Take the black pipe cleaner and wrap it around the middle of the bump pipe cleaners. It will look like wings

Take the clothespin and glue it to the middle of the butterfly wings.

Take each small magnet, and glue them on the clothespin.

Let it dry, and you can use it as a magnet!

Starry Night Craft

Take the white Bristol board with stars punched in it, then glue one piece of tissue paper on each star.

Glue it together (You can ask your Mom, Dad, Grandma or Grandpa for help!)

Take the tea light and turn it on. Put it inside the box. You will see the stars shining!

We would love to see what your crafts look like! Send us pictures of your finished craft! Enjoy making a bracelet for yourself or someone else.
